## AS TO BONUSES.

The president of the C. P. R. has pronounced against the principal of further railway subsidies in the North-West. He considers such subsidies unnecessary in the public interest and unfair to existing companies, but if subsidies are going the C. P. R. wants its share. It is a fair supposition that there will not be subsidies for all the companies who are asking them—the Grand Trunk, the Canadian Northern, the Trans-Canada, and the C. P. R. But if there are subsidies for any the C. P. R. is out for a share, possibly the lion's share. That being the case it is as well to examine into the claims which that company has upon further subsidies and to what extent the public interest would be served by its receiving them.

Even the president of the C. P. R. will admit that his company was heavily subsidized in the first place. Not only so but the North-West was handed over to it to do as the company pleased with it. The C. P. R. has had a monopoly of railway transportation in the North-West for twenty years, at first by straight legislative enactment and afterwards by force of circumstances carefully taken advantage of and still further supported by large subsidies to C. P. extensions to the exclusion of all other enterprises. Twenty years ago the North-West was handed over to the C. P. R. in trust. And how has the company met the responsibilities thus entailed. At the end of the twenty years it is unable to handle traffic which has developed in spite of its policy along its lines and refuses to let any one else handle it. The Sinaluta instance cited in these columns is all the evidence that is necessary as to the absolute failure of the C. P. R. to adequately meet the requirements of the country along its lines.

This is the reason why it would not be sound public policy to bonus further extensions of the C. P. R. in the North-West to the exclusion of other companies. The facts of the past two years show plainly that whatever the C. P. R. can do the country cannot afford to depend upon that company to adequately meet its transportation needs. Its policy has been against the North-West from the day the first rail was laid until today with fifteen million acres of land worth \$3 an acre each, and with twenty millions of dollars of stock above par available, the farmers along their lines are in effect told that they and their grain may not, until the C. P. R. gets good and ready to relieve the congestion. This is an intolerable state of affairs. It occurred in 1901. It was worse in 1902, and if providence is kind it will be still worse in 1903. This is not a company that the country can afford to encourage by further bonuses.

Another point is that the bargain with the C. P. R. was made at a time and under circumstances which prevented any proper public control of rates or traffic arrangements. Another and separate system might be brought under such control, and thus be a means of checking the C. P. R. even though it is beyond legislative enactment. But if branches of the C. P. R. are bonus even under regulations as to public control, the main system of the company with all its special privileges is still further strengthened, to the public detriment. While the Bulletin would be very far

from saying that the C. P. R. should be put on different footing from other railway companies, present or prospective, in the matter of extensions, it thoroughly believes that to allow an extension of the C. P. R. to displace on any terms an entirely separate railway scheme would be the worst possible public policy.

The instance in mind is this, The Canadian Northern has located a line of railway from Grandview, Man. to Edmonton. The C. P. R. is busily locating a branch of their Kirkella extension over actually the same ground at least from Saskatoon west. In Edmonton the surveys are not more than 100 yards apart and as far as the information of the Bulletin reaches the limits are no where more than five miles apart for a distance of one hundred miles east of here. The Canadian Northern line was first surveyed. The survey of the C. P. R. line can and does only mean that that company proposes to prevent the Canadian Northern from being built, and the expressions of President Shaughnessy are to the effect that his company will claim not only the ground but the bonus that would have enabled the Canadian Northern to build. It is impossible to foresee at this stage what will be the outcome but the Bulletin is of the belief that it would be better public policy to bonus the Canadian Northern to build this line under proper restrictions as to freight rates than to have the C. P. R. build it for nothing without restrictions, much less bonus the C. P. R. for building it.

## WETASKIWIN

Times, Jan. 21.

M. E. Bick goes to Edmonton on Tuesday to participate in a skating match against K. H. Blatchford.

V. C. French returned on Monday from a protracted trip to his home in Ontario, whither he went on account of illness. His father is somewhat improved.

The Wetaskiwin hockey team have issued challenges to the Red Deer and Strathcona teams and it is expected that a match will be played here next week.

W. H. Eggleston, of the firm of Paris & Eggleston has already purchased over 300 head of good work horses across the line. The first shipment of these desirable horses will arrive this week.

R. A. Vanmeter, of Millet, was in town on Wednesday. His many friends will regret to learn that he has been in poor health for some time, and hope that he may soon be restored to his wonted health again.

Travers Bros. passed Lou Rix and George Tanton at Lesser Slave lake, on January 8th, 120 miles from their destination, which they should have reached about the 15th. They reported fine weather and all well.

C. O. Swanson, the popular immigration agent, left last week for Minnesota, Wisconsin, Iowa and Dakota. He expects to return the first week in March with a colony of some 150 people and thirty cars of effects. The colony will locate in the Birch lake district, about 100 miles east of town.

The many friends of Mr. and Mrs. S. B. Talbot and family in the section will regret to learn that they are about to leave town. Mrs. Talbot and Carl left on Wednesday's train for Tacoma, Wash., and will be followed by Mr. Talbot and Roy as soon as business can be arranged here.

A very painful accident occurred last Tuesday morning in the home of Mr. and Mrs. J. E. Curtis. Their youngest child, a boy of some fifteen months, was sitting in a high chair near a red-hot stove and in some way fell onto the stove. Both hands were badly burned, in some places to the bone—and he also received a bad burn across the forehead. The little sufferer is doing as well as can be expected, and the many friends of the family sincerely hope that excessive results will accrue from the incident.

## BANK FOR LOSS

Grache, Jan. 30.

The manager of the Lacombe branch of the Merchants Bank was in town this week "sizing up" the situation with a view to the establishing of a branch. We understand he was favorably impressed and will advise the head office that a bank here is warranted. This makes the third or fourth bank that has made similar feints. While different business men prefer different banks, the business men of Olds are at least almost unanimous in saying, "first come, first served."

## The Fight is On

Quebec, Jan. 28.—Le Soleil, continues its campaign against Tarte by publishing the following in its issue of Monday. "La Patrie announced some days ago that the liberal association of Frontenac county had adopted a resolution thanking Tarte for 'sacrifices' he has made for the liberal party."

"As a matter of fact, this news was not exact. The only resolution adopted was that approving of the policy of the prime minister. A member of the association proposed a resolution cordial to Tarte, but it met with no support and was laid on the table."

"Since La Patrie endeavors to create the impression that the liberal party has exhibited ingratitude towards Tarte, it is important that it should not lead public opinion astray on the subject."

"This will be the task of the new liberal organ in Montreal, but meanwhile, Le Soleil, being the only French daily in the province, it is compelled to intervene."

"It is not insulting Tarte when we say that when he joined the liberal party in 1891, with the secrets of Mr. McGreevy, he was no rich. The liberals of Quebec made more sacrifices to elect him in Montserrat, than they generally make for their own friends."

"From 1891 to 1893, Tarte was the protégé of our Montreal friends. The liberals of the metropolis, though greatly exhausted by sacrifices, were then in opposition at Ottawa as well as at Quebec—did not hesitate to subscribe among themselves certain sums each month for the support of Tarte."

"This position is not to be regretted, for he was working with admirable energy upon organization for the campaign of 1896."

"During this time the sons of Tarte were nominal proprietors of La Patrie, were earning an average, we believe, of \$15 per week."

"Since the advent of the liberals to power the Tarte family has lived at an average of \$50,000 per year. When they left as they did so with a newspaper worth a quarter of a million, purchased with the party's money, maintained and developed by liberals, anxious to stand well with the minister of public works."

"Is not this the true situation? Le Soleil is forced to enter into these details so that it may not be understood that the liberal party has been ungrateful to an ally, when the real facts are that this ally came to it poor and without promise, and retired rich and prosperous."

# TWENTIETH CENTURY CLOTHING.

We have been granted the sole agency for this famous line of Clothing for Edmonton.

The Clothing is sent to us in neat paste-board boxes; on the front of each box is a sample of the cloth that the suit is made of.

There is no possibility of the suit becoming shop worn or losing any of its newness, when they are packed in this style.

The cheapest suit that these people make is \$12, all being high grade goods, and not the ordinary ready-made suits, but are tailor-made, and guaranteed to have style and durability.

We do not wish to impress you that the goods are cheap, for being made of the best Worsteds and Tweeds, and put together by skilled mechanics the price is reasonable, but we do not advertise them as cheap as ordinary clothing.

We will be pleased to show you these goods. You will want a suit in the spring if not at present.

If you wish a cheap and durable suit we have three different brands for you to choose from.

New York, Jan. 21.—By the arrest  
of a man who the police say is William  
G. Far o. g. an alleged scheme to jessie  
the pub is being brought to light to-day.  
The police say that Furlong has been  
arrested in New York and Philadel-  
phia, and that a gentleman who would  
be willing to marry a lady he had  
never met, and from whom he would  
be paid to secure a divorce as soon  
as possible after the marriage. The  
advertisements said it was neces-  
sary, in order to settle an estate, for  
the lady, or marry, and the man ac-  
cepted would receive \$20,000. As soon  
as an answer was received a circular  
would be sent in which the applicant  
was asked to send \$1 for a picture of  
the lady. The police say five thousand  
answers were received, and that Fur-  
long also secured money by advertising  
for applicants for a divorce. Fur-  
long had handily furnished offices on  
Wall street. When arrested the

## Alberta Land Co.

Has 40,000 Acres of Land

Situated in the Beaver Lake, Vermilion, and Birch Lake  
districts. Also east of Lake St. Ann and north of Egg  
Lake. These lands have been selected with great care as  
to soil, water and meadow, also as to being mostly clear of  
timber and heavy brush. We are safe in saying one-half  
of these lands are open, lying up high and dry, and in many  
instances sloping to a river or creek of pure sparkling  
water; in some instances a spring of living water flows con-  
tinually. In many places coal is found in large quantities.  
These lands range in price from \$5 to \$8 per acre, accord-  
ing to location. Maps and advertising matter can be had  
on application.
